Our Story

Caitlin & Cory were inspired to open a cat cafe while they were living abroad in Japan. Japan is home to hundreds of cat cafes and they were instantly blown away by the unique concept. They returned to the US on a mission to create a kind of space most people didn't know existed: a cat cafe! In 2017, they opened their first location in Seattle and were over the moon to open their second location here in Bellingham where they met serving tables at Boundary Bay 15 years ago. These Western grads had a full circle moment when they were able to move back to the place they love most and bring this unique space for the community to enjoy. Thank you for being a part of a wild dream come true!
